

A Note from the Owners of 8818 Canal Road...

Welcome to 8818 Canal Road! This beautiful home has brought joy to 3 generations of our family. I am proud to say that my dad built this house. He also custom built the kitchen table which fits perfectly in its space. It has seen many crab feasts, crazy card games, and great times.

We have a spectacular ocean view and can see all the way from Port Browning to Razor point. The sunrises and sunsets are stunning and can be enjoyed from inside or out on the deck. We love watching boats go by and playing badminton or catch on the lawn. Our Easter tradition on Pender was making nests out of twigs, moss, and leaves so the Easter bunny could leave our treats in it.

Rowing our dingy to our boat and going for a spin or fishing was always a hit. We would carve up our fish on the deck afterwards.

The easy beach access is perfect for exploring the beach, walking to the spit, or launching a kayak. You will likely notice tiny handprints down there in the cement. The wildlife is amazing. There's nothing like seeing deer on the property in the morning or opening the door to find an owl perched on the railing. We love this home and will cherish all of the memories we have made here. We hope someone will appreciate it as much as we do and lovingly make it their own.
